Gov. Flower Will Not Run Unless All Are
in Line.

ALBANY, N. Y., Sept. 19.—Gov. Flower announced today that he is not a candidate for re-nomination. He made known the determination after a long interview with Senators Hill and Murphy. Gov. Flower said: "I am convinced that my nomination would not be so likely to command the full vote of the party as would the nomination of some other democrat, and I am too desirous of party success to be a candidate under these circumstances." Gov. Flower later said: "This is an important year for the party. Republican victory in the fall would likely mean the perpetuation of republican control in the state and republican success in 1896. Our ticket must have the best, the best support of every democrat to insure democratic victory, and a man should be nominated for governor who can command that support. As for myself I need not even be the democrat of New York that I will be found, as I have always been in the past, battling in the ranks for the success of the ticket which my party shall nominate."

Our Country and Our Neighbors.

This beautiful publication by John L. Stoddard, the famous American traveler and lecturer, is now issued in sixteen parts, each part containing sixteen magnificent half-tones, engravings eight by eleven inches in size, from photographs of notable structures, busy street scenes, and wonderful views of nature's architecture in the Americas. The Great Northern railway has secured an edition of this art work from the publisher, and will furnish it to friends and patrons at the mere cost of handling. The parts will be delivered weekly at 10 cents each, and purchasers have the privilege of buying a copy of Grauman's celebrated steel plate view of Niagara Falls at one-tenth the regular retail price of that famous production. Agent C. W. Pitts has a framed copy of the Niagara picture hanging in the city ticket office, and also has a supply of part L of "Our Country," and he asks every body to call at this office and see them. The book is certainly nothing more instructive than to read a graphic description of some noted building, monument, city, city, extract, or mountain, particularly when the scene is pictured as faithfully and grandly as sun and air can do it. This work is an art treasure, and only needs to be seen to be appreciated. Every patriotic citizen is strengthened in his admiration and love of country by a perusal of this book.
